## INDEX TO VOLUME 13

January thru June 1947

### How to Use This Index

As you know, items in *Quote*, arranged alphabetically according to subject, are assigned an index number. In our semi-annual index, the first numeral in each reference refers to the issue of *Quote*, the second numeral indicates the location of the item within that issue, according to its index number. Thus: "Ability—24-1," tells you that an item relating to *Ability* will be found in the 24th issue of this volume of *Quote* under index number 1.

Quotations in the section *May We Quote You On That?* are also numbered consecutively, but each number is followed by the letter Q. The reference to "Adults, Responsibility—4-8Q; 7-18Q..." indicates that quotations relating to this subject appear in the 4th issue, item 8-Q, and in the 7th issue, item 18-Q, in the *May We Quote* section.

One or more letters, following an issue number, refers to material in regular departments. For example: "Acoustics—2-NN; 17-NN," means that references to new ideas in *Acoustics* will be found in the 2nd and 17th issues of *Quote*, under the department heading, *News Of The New*. A complete list of department abbreviations follows:
